## WORK EXPERIENCE

### Front-End Developer - Influx Marketing Apr 2023 - Jun 2024

- Actively manage and improve websites for clients, utilizing advanced technologies including HTML, CSS3, SCSS, jQuery, PHP, and Apache
- Handle custom CSS development, image management, form handling, and server configuration.

### Front-End Developer - Cheef Holdings Jan 2022 - June 2022

- Enhanced website aesthetics and user experience by redesigning page layouts with Elementor and incorporating diverse site functionality using an array of plugins
- Streamlined content presentation by organizing information into well-structured sections, crafting interactive web components (such as toggles, accordions, and carousels), and optimizing images to achieve a balance between high quality and efficient compression

Full work history available upon request.

## Professional Skills

Proficient in ChatGPT prompt engineering, including the development and training of task-specific GPT models. Possess a strong command of HTML, CSS, JavaScript, and comprehensive design principles.

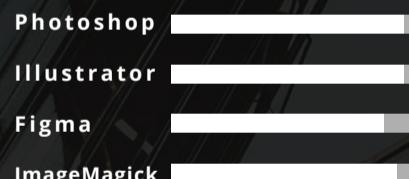

## Interpersonal Skills

Consistent and reliable in delivering high-quality work. Strong ability to work independently, demonstrating self-motivation and discipline. Exceptional attention to detail. Excellent communication skills, contributing to productive team interactions and successful project outcomes.
